

PROCEEDINGS ON PLACE DITCH TO BE COURT FIGHT

Injunction Action Against Commissioners to be Heard Today.

Injunction proceedings of Fred Woodward of this city, with more than 150 other interested St. Joseph county property owners, against the construction of the Place ditch as directed against the LaPorte county commissioners will be brought to issue in the LaPorte circuit court Friday morning.

The Place ditch for the construction of which benefits have been assessed on more than 600 farms and tracts of land in this county, many in LaPorte, Marshall, Starke, Elkhart and as far southeast as Kosciusko county, is one of the gigantic ditch propositions attempted in the northern part of the state.

Petition for Injunction. The case will be argued on demurrer in the LaPorte circuit court. The petition for an injunction is in three paragraphs and the first of these sets out the following:

That the original petition for drainage of certain lands called for only a short ditch and that but the property of approximately 20 owners was affected. These owners had the right of remonstrance on the original petition, but that after the LaPorte county commissioners had approved the matter, the viewers extended the area to be covered nearly 20 times the length called for in the original petition. This likewise affected the properties of 20 times the number of people but who had lost the right of remonstrance under the original petition. This was done, the petition for an injunction sets out, to defeat the right of a large number of property owners which with two-thirds remonstrating could have halted the ditch originally.

The second paragraph deals with the theory that the proposed petition for a ditch will cover a part of the same line of a ditch which under a decree of the circuit court there and known as the Miller ditch will run from that part of the Wabash railroad where the channel runs down to the main channel. The third paragraph deals with practically the same theory in that the Place ditch would cover part of the territory now drained by Salisbury ditch which has been previously ordered constructed and which is now almost completed.

May Appeal Case. In the event that the demurrer to the amended complaint for an

injunction is sustained, John G. Yeagley who together with Osborn and Osborn of LaPorte, represent the petitioners will appeal. Mr. Yeagley said Thursday.

The suit is directed at the LaPorte county commissioners, Howard L. Dunn, construction commissioner of the ditch, and Clyde C. Wald, contractor for the ditch.

Property in Center township, this county, is even assessed for the construction of the ditch as have farms in Liberty and Lincoln townships. Mr. Woodward has a large farm in Lincoln township. He together with others owning large tracts have banded together in the litigation over the ditch.

War air has been tried successfully, it is said in annihilating fogs.

INGROWN TOE NAIL

How to Toughen Skin so Nail Turns Out Itself

"Outgro" drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender sensitive skin underneath the toe nail, that it can't penetrate the flesh, and the nail turns naturally outward almost overnight.

"Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.—Adv.
